Regina Galer has worked at the National Nuclear Security Administration (NNSA) Office of Defense Nuclear Nonproliferation (DNN) since 2003, when she started as a Nonproliferation Graduate Program Fellow with Pacific Northwest National Laboratory. Since 2005, she has managed cooperative nuclear security and non-proliferation projects with partner countries for the Office of International Material Protection and Cooperation (IMPC). In 2010-2011, she served as Director of the Department of Energy office in U.S. Embassy-Pakistan, and in 2012 became Director of the IMPC Office of Weapons Material Protection. She earned a Bachelor of Science in Journalism (science writing) and Environmental Studies from Iowa State University in 1997, and in 2002 a Master of Public Administration and Master of Arts from Indiana University Schools of Public and Environmental Affairs and Journalism. In 2011, Regina was honored to receive the NNSA Gold Medal for distinguished service and George Washington University Arthur S. Flemming Award for federal government leadership.

Noshing with Notables provides an opportunity for George Washington University students to meet and engage with successful policy practitioners in an informal setting over lunch. Our “Notables” are public policy experts from the government, private sector, academia, and non-profit entities.

The George Washington University Regulatory Studies Center raises awareness of regulations’ effects and improves regulatory policy through research, education, and outreach.

*Space is limited, please [register](#). Attendance is only open to the GW Community
