Agile Governance for Our Future

REIMAGINING REGULATION TO SUPPORT INNOVATION

Public Symposium – April 26
Washington, DC

Agile governance has the power to address society’s greatest challenges while seizing the full promise of innovation. Join us and other leaders from government, business, academia, and civil society to discover how to implement agile governance with more dynamic, flexible and iterative regulatory principles.

Registration and hotel details to follow. Participants are responsible for their own travel arrangements and expenses. Any questions can be submitted to agilegovernance@advoc8.com.

*Attendance at this event is available at no cost where appropriate under applicable laws. We may be required to report gifts to government officials or invoice you to avoid making an impermissible gift. Please contact agilegovernance@advoc8.com if you have any questions, or if you’d like to arrange to reimburse us for your attendance.
Across all sectors and around the world, innovation is fundamentally changing the way we live and work together – it’s connecting the world, providing tools to help address environmental and health challenges, and powering economic growth and recovery.

Governed well, technological innovation can be a powerful force for good. But there is a growing international consensus of a foundational need to adapt regulatory practices to realize the opportunities and mitigate the risks from innovation. Enter ‘agile governance,’ an approach that seeks to use dynamic, flexible and iterative regulatory principles and techniques to achieve a more effective balance, one which helps us address societal challenges while also seizing the full promise of innovation.

Agile Governance for Our Future will feature leaders from government, business, academia, and civil society sharing and discussing their experiences with agile governance, and offering new perspectives on how we can rethink regulation so that it is fit for purpose, now and into the future.

Event Overview

2:30-3:00PM - Registration and networking
The REACH Skylight Pavilion

3:00-5:00PM - Agile Regulation Program
The REACH Skylight Pavilion
