*Senator Tom
Carper (D-DE)*
U.S. Senate

*Senator James
Lankford (R-OK)*
U.S. Senate

MODERATOR:
*Shawne
McGibbon*
ACUS

PANEL I: REGULATORY LESSONS FROM THE LAST CENTURY

Distinguished law and policy experts review the major developments that have shaped regulatory policy over the past century. This panel explores how regulatory practices and policies have evolved, the shifting roles of the different branches of government, and the key milestones that have come to define administrative law and the regulatory landscape today.

Sally Katzen

ABOUT THE EVENT

To celebrate 10 years of improving regulatory policy through research, education, and outreach, the GW Regulatory Studies Center is convening experts to reflect on the regulatory policy lessons of the last century and to explore the regulatory challenges and opportunities the future may hold. This educational event brings together scholars and practitioners with different viewpoints to share their insights through engaging and thoughtful panel discussions. We're thrilled to have Senators Tom Carper and James Lankford give keynote addresses at the event.

PANEL II: OPPORTUNITIES AND CHALLENGES IN THE CENTURY AHEAD

MODERATOR:
Bridget C.E. Dooling
GW Regulatory
Studies Center

Policy and legal scholars discuss the challenges and opportunities of regulation in the next one hundred years. They explore the promise and risks of technological innovation, and what we might expect from Congress, the courts, and agencies.

Sarah A. Binder
GW Department of
Political Science

Remington A. Gregg
Public Citizen

Andrew W. Torrance
KU School of Law

About Us

The GW Regulatory Studies Center improves regulatory policy through research, education, and outreach.

The Center is a leading source for applied scholarship in regulatory issues, and a training ground for anyone who wants to understand the effects of regulation and ensure that regulatory policies are designed in the public interest.

Established in the fall of 2009, as an academic center of the George Washington University, the Center is celebrating its 10th year. Located in the top-ranked Trachtenberg School of Public Policy and Public Administration, RSC provides rich opportunities to high achieving students interested in careers in regulatory policy. Center scholars publish their research in respected journals, present at academic conferences, and convene public events to share insights on regulatory policy and practice from individuals across the ideological spectrum, including members of Congress, high-ranking officials from different administrations, international diplomats and academics, and legal, policy, and economic scholars. With our location near the White House and Capitol Hill, RSC is a hub for academic institutions around the country, and brings fresh ideas and analysis to policy makers in Washington.
